

# TROY INDUSTRIES, INC.

**CQB-SPC A4 with 40mm M203**

*Troy Close Quarter Battle - Special Purpose Carbines feature U.S. Military approved M16/AR15 carbines with all the latest enhancements. Folding battle sights, free floating military grade rail systems with top rail in perfect alignment with flat-top receiver, single point combat slings and Vltor multi-position stocks. Available in military / law enforcement or civilian legal configuration.*

**CQB-SPC A5  
Internally Suppressed**

*The Rock SOPMOD M14 Sniper Weapon System The special operations peculiar modification M14 is the most advanced 7.62x51 NATO carbine available today. It features a heavy 5R stainless cut rifled barrel, magnesium and titanium alloy stock, a patented gas system which enhances reliability, accuracy and cuts recoil in half. Each SOPMOD M14 is guaranteed to achieve SUB-MOA accuracy from a package that is smaller than a 5.56mm M4 carbine. Conversions available on agency and customer supplied M1A and M14 rifles. Complete rifles are also available.*
