

Micro Tavor[®]

Micro TAVOR MTAR 21 (5.56 mm / 9 X 19 mm)

The Micro TAVOR offers the superior performance of the TAVOR Assault Rifle (5.56mm) with a conversion kit that transforms it into a 9mm SMG.

One rifle, two calibers

- Training on a single weapon
- Multitask operability
- Combined logistics

The Micro TAVOR was developed in close cooperation with special units and was tailored to their specific requirements and needs.

Micro TAVOR The next generation Special Forces firearm

- Optimized miniaturization & ergonomic design
- High efficiency in close encounters
- Uninterrupted day-to-night switch without re-zeroing
- Accessory rails for a varied array of sights
