NEGEV LMG Light Machine Gun (5.56 mm)

Models:

NEGEV LMG Standard Version
NEGEV LMG Commando Version

The NEGEV LMG is the IDF's standard-issue LMG for conventional forces and special units. It can also be mounted on helicopters and patrol boats. This weapon — versatile and reliable — is suitable for a broad range of uses. Operated by one man, it's notable for its light weight, features a folding stock, and can serve as a personal weapon.
