## **A Very Limited Opportunity!**

In an innovative business deal with PEO Soldier and the Army Materiel Command, Remington Defense was allowed to purchase the spare parts it removes during the conversion of an M24 Sniper Rifle to an XM2010 Enhanced Sniper Rifle. These parts, preserved in their original and serviceable condition, are then combined with a new M24 barreled action to create a unique historical firearm that meets all the accuracy requirements of the original military specification. There will be less than 2,000 of these systems offered for sale. This raffle is for the very first system of this production run.
